Objectives of the Lesson

This lesson has been designed to make students use adjectives and adverbs correctly as well as they will be able compare between things with the use of comparative adjective and superlative one.

1. Adjectives:

• An **adjective** is a word or set of words that **modifies** (i.e., describes) a noun or pronoun. Adjectives may come before the word they modify.

Examples:

That is a cute puppy.

_Adjectives may also follow the word they modify:

Examples:

That puppy looks cute.

The technology is state-of-the-art.

1.1 Comparative adjectives

We use **comparative adjectives** to show change or make comparisons:

This car is certainly better, but it's much more expensive.

I'm feeling happier now.

We need a bigger garden.

We use *than* when we want to **compare one thing with another**:

She is two years older than me.

New York is much bigger than Boston.

He is a better player than Ronaldo.

France is a bigger country than Britain.

_When we want to **describe how something or someone changes** we can use two comparatives with *and*:

The balloon got bigger and bigger.

Everything is getting more and more expensive.

Grandfather is looking older and older.

We often use *the* with comparative adjectives to **show that one thing depends on another**:

The faster you drive, the more dangerous it is.

(= When you drive faster, it is more dangerous.)

The higher they climbed, the colder it got. (= When they climbed higher, it got colder.)

1.2 Superlative adjectives

We use *the* with **superlative adjectives**:

It was the happiest day of my life.

Everest is the highest mountain in the world.

That's the best film I have seen this year.

I have three sisters: Jan is the oldest and Angela is the youngest.

How to form comparative and superlative adjectives

We usually add *-er* and *-est* to **one-syllable words** to make comparatives and superlatives:

	old	older		oldest		
_	long	longer		longest		
If ar	n adjective ends in –	e, we add $-r$ or $-st$:				
_	nice		nio	cer		nicest
	large		laı	rger		largest
Tf or	a adiaativa anda in a	vowel and a concenent w	رم لم	hlatha aonsananti		

If an adjective **ends in a vowel and a consonant**, we double the consonant:

big	bigger	biggest
fat	fatter	fattest

If an adjective **ends in a consonant and** -y, we change -y to -i and add -er or -est:

happy	happier	happiest
silly	sillier	silliest

We use *more* and *most* to make comparatives and superlatives for most two syllable adjectives and for all adjectives with three or more syllables:

careful	more careful	most careful
interesting	more interesting	most interesting

However, with **these common two-syllable adjectives**, you can **either** add -er/-r and -est/-st or use *more* and *most*:

common	narrow
cruel	pleasant
gentle	polite
handsome	simple
likely	stupid

He is certainly handsomer than his brother.

His brother is handsome, but he is more handsome.

She is one of the politest people I have ever met.

She is the most polite person I have ever met.

The adjectives *good*, *bad* and *far* have irregular comparatives and superlatives:

	good	better	best
	bad	worse	worst
_	far	farther/further	farthest/furthest

2 Adverbs

3. An **adverb** is a word or set of words that modifies verbs, adjectives, or other adverbs.

Adverbs answer how, when, where, why, or to what extent—how often or how

Examples:

He speaks slowly (tells how)

He speaks very slowly (the adverb very tells how slowly)

They arrived today (tells when)

They will arrive in an hour (this adverb phrase tells when)Let's go outside (tells where)

We looked in the basement (this adverb phrase tells where)Bernie left to avoid trouble (this adverb phrase tells why) Jorge works out strenuously (tells to what extent)

Jorge works out whenever possible (this adverb phrase tells to what extent)
