Report of experiment 3

coord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
rials Chemicals od of work ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m1(g) m2(g) Cold Water T1 (K) Temperature T KOH NH4Cl	
crials Chemicals Chemicals Od of work Chemicals Chemicals Chemicals Chemicals Cod of work Cod of wor	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m1(g) m2(g) Cold Water T1 (K) Temperature T KOH NH4Cl NH4	• • • • • • •
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Temperature T KOH NH4Cl Cold Water T1 (K) Temperature T	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Temperature T KOH NH4Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m1(g) m2(g) Cold Water T1 (K) Temperature T KOH NH4Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m1(g) m2(g) Cold Water T1 (K) Temperature T KOH NH4Cl Temperature T	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m1(g) m2(g) Cold Water T1 (K) Temperature T KOH NH4Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water $m_1(g)$ $m_2(g)$ Cold Water $T_1(K)$ Temperature T	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
ecord the obtained results in the table. Product Mass of Cold Mass of substance Temperature of Equilibrium Water m ₁ (g) m ₂ (g) Cold Water T ₁ (K) Temperature T KOH NH ₄ Cl	
$\begin{array}{c ccccccccccccccccccccccccccccccccccc$	
Product Mass of Cold Mass of substance Temperature of Cold Water m ₁ (g) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance T M	
Product Mass of Cold Mass of substance Temperature of Cold Water m ₁ (g) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance T M	
Product Mass of Cold Mass of substance Temperature of Cold Water m ₁ (g) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance Temperature of Cold Water T ₁ (K) Temperature T Mass of Substance T M	
Water m1(g) m2(g) Cold Water T1 (K) Temperature T KOH NH4Cl	
KOH NH4Cl	
NH ₄ Cl	leq (K
alculate the number of moles of KOH , and NH4Cl put in the calorimeter.	
calculate the number of moles of KOH , and NH4Cl put in the calorimeter.
