EViews is a modern econometric, statistics, and forecasting package that offers powerful analytical tools within a flexible, easy-to-use interface.

Using EViews, you can quickly and efficiently manage your data, perform econometric and statistical analysis, generate forecasts or model simulations, and produce high quality graphs and tables for publication or inclusion in other applications. [Find out more about EViews.](#)

For students, there are two versions of EViews available, [EViews University Edition](#), and EViews Student Lite.

EViews Student Lite is available for free, but is restricted by the number of observations that can be analyzed, and **does not allow saving**. See the [comparison table](#) for full details on the differences between University Edition and Student Lite.
